

Part 3/3:

Linear Regression Model

- | | |
|-------------------------------------------------|-------------------------------------------------|
| 18. Linear Regression Problem Definition | 19. Simple Linear Regression Model |
| 20. Deriving the Least Squares Method | 21. Normal Equation Solution |
| 22. Geometric Interpretation | 23. Multiple Linear Regression Extension |
| 24. Model Assumptions and Diagnostics | 25. Python Implementation and Practice |
